THE ATTICA RODEO AND SHOW ASSOCIATION

Invites you to participate in an educational event devoted to

## **RIDING TO MUSIC**

Saturday May 22 - June 19 - July 17, 2010

Clinic location Attica Rodeo Grounds, Attica, New York

If you have never had the opportunity to ride with music suited to your horse's gaits and personality, come try it! It's great fun for horses and riders and auditors. The experience of working your horse in correct and steady rhythm and tempo may even give you new insights in training techniques.

This is open to any horse and rider; simply riding for fun with music or for those interested in aiming to put together freestyles. As long as you can walk and trot with your horse, come try this event.

The sessions are organized as low-stress lessons focused on rhythm and relaxation in work appropriate for that horses' level. The tempos are identified for each gait, and then the music is selected and adjusted to the appropriate tempo. Various pieces in correct tempo will be played for each gait while riders work their horses with the music.

If you have particular music you would like to try, let us know and send a CD a week in advance of the clinic date. Our current library includes rock and roll, salsa and jazz selections.

**½ hour sessions \$60**

**Reservations and Information: Kathy Wood-Copa 585-624-1117**
